

Informe de puerta E2 — run_v1.22_r3 (Paper IV v1.22-r3)

Veredicto actual: **PASS (R-01)**. Evidencia: 20_EVIDENCE/E2/. Auditor: Claude Opus 5.5, misma sesión que las ejecuciones anteriores; no se ejecutó Lean.

E2 — Mathematics (r3)

- **Delta.** No line of proof or mathematics changed in r3 (E6: the five changed paragraphs per language contain no inline mathematics, and every formula is identical). The new text of the A.2 paragraph *describes* the state of the seven rows without changing them.
- **Inherited and revalidated by identity**, as consolidated in run_v1.22_r2:
 - A2-1, A2-2, A2-7: ACCEPTABLE_SUMMARY since run_v1.2_r1.
 - A2-3, A2-5, A2-6: ACCEPTABLE_SUMMARY since run_v1.21_r1.
 - A2-4: ACCEPTABLE_SUMMARY since run_v1.22_r1 (six C.3 checks against pinned Mathlib and E18/E19).
 - The 56-component ledger of run_v1.2_r1 E2 also carries over.
- **R-01 (OBSERVATION, in force):** the second-moment bounds of C.2 are cited, not derived. It is a declared expository limit; no action is needed before publication. Expanding it would be an editorial option, not a requirement.
- **Limit of the written-proof check.** It is summary-level against frozen formal statements and is not human peer review.

E2 verdict (r3): PASS (observation R-01). Inherited and revalidated by identity; no mathematics was re-run, because there was no reason to.
