

Informe de puerta E6 — run_v1.22_r4 (Paper IV v1.22-r4)

Veredicto actual: **PASS**. Evidencia: 20_EVIDENCE/E6/. Auditor: Claude Opus 5.5, misma sesión que las ejecuciones anteriores; no se ejecutó Lean.

E6 — NEW-05 and parity (run_v1.22_r4)

Independent method

10_SCRIPTS/e6_r4_delta.py produces E6_R4_DELTA.json and auditor_diff_es_md.diff. The editor's check_r4.py was not run and not trusted.

- **MD.** 2565 → 2565 lines. Changed lines: **only 1.1355 (A.2) and 1.2356 (F.4)**.
 - A.2: «la programación numérica de C.3» → «el calendario numérico de C.3». The article agreement also changes, so the edit spans three tokens.
 - F.4: «cota adaptada con **muestra fijada**» → «cota adaptada con **muestras con anclajes**».
- **TeX.** 2367 → 2367 lines. Only 1.1317 and 1.2159 change, with the same substitutions. The preamble is identical.
- **Editor's diff.** The body of CHANGES_es.diff equals the auditor's diff.
- **Protected content r3 = r4.** Identical: displays, inline math, code spans and blocks, tags, headings, bold leads, table rows, images and references.
- **Established terms, r4.**
 - «calendario numérico» appears at 1.1355 and 1.1599, consistent with the C.3 heading «Un calendario explícito» (1.1638).
 - «muestras con anclajes» appears at 1.2356 and in the F.5 heading at 1.2403; Table 10 has «Cota de muestra con anclajes» (1.2398).
 - «programación numérica» and «muestra fijada»: 0 occurrences.
- **PDF corresponds to TeX.** ES r4 has 73 pages (xdvipdfmx, 2026-10-01 15:39 UTC). The token diff against r3 has **exactly 2 regions**, the two substitutions, after joining hyphenated words. The three line-break changes declared in ARTIFACT_CHECKS.json («conso-lidado», «declara-do», «ve-rifica») are line-wrap effects only.
- **Raster (72 dpi) vs. r3.** Only **pp. 40 and 66** change, matching ARTIFACT_CHECKS.json; 71 pages are raster-identical. On pp. 40 and 66 the first line, the last line and the line count are unchanged, so **pagination does not shift**.
- **Visual check.**
 - Side-by-side r3|r4 at 130 dpi (cmp/) and the changed paragraphs at 160 dpi (zoom/), for pp. 40 and 66. The image was displayed and the row logged at that moment.
 - The new wording is legible, with no overflow; nothing else on those pages changed.
 - The other ES pages (raster-identical) and all EN pages (byte-identical) are **inherited and revalidated by identity** with the run_v1.22_r3 inspection (PAGE_INSPECTION_LOG.csv, 145 rows).

Result

- **NEW-05: CLOSED in r4.**
- NEW-04, X-15 and NEW-01 stay closed: the status paragraphs, prose and Model are unchanged apart from the two substitutions.
- Style note, not a finding: «con muestras con anclajes» repeats «con». It is grammatical, and the term matches F.5.

E6 verdict (r4): PASS. Executed in r4 for the ES delta; EN inherited and revalidated by identity.
